

January 4, 2012

We are pleased to announce that the Managing Directors of Tweedy, Browne have been selected as the 2011 International-Stock Manager of the Year in the United States by Morningstar for their management of the Tweedy, Browne Global Value Fund. Please visit www.morningstar.com for further information.

Established in 1988, the Morningstar Fund Manager of the Year award recognizes portfolio managers who demonstrate excellent investment skill and the courage to differ from the consensus to benefit investors. To qualify for the award, managers' funds must have not only posted impressive returns for the year, but the managers also must have a record of delivering outstanding long-term risk-adjusted performance and of aligning their interests with shareholders'. The Fund Manager of the Year award winners are chosen based on Morningstar's proprietary research and in-depth qualitative evaluation by its fund analysts.

The average annual total returns of the Tweedy, Browne Global Value Fund (the "Fund") for the 1-, 5- and 10-year periods ending December 31, 2011 were -4.13%, -0.04%, and 6.19%, respectively. As of March 31, 2011, the Fund's total annual operating expense ratio was 1.40%.

For the period ended November 30, 2011, the Fund received an Overall Morningstar Rating of 5 stars out of 329 Foreign Large Value Funds. For the 3-, 5-, and 10-year periods ending November 30, 2011, the Fund received a 5 star rating (out of 329 funds), a 5 star rating (out of 261 funds), and a 5 star rating (out of 149 funds), respectively. The Overall Morningstar Rating is based on risk-adjusted returns derived from a weighted average of 3-, 5-, and 10-year Morningstar metrics. For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating based on a Morningstar Risk-Adjusted measure that accounts for variation in a fund's monthly performance (including the effects of sales charges, loads and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star.

The preceding performance data represents past performance and is not a guarantee of future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data shown. Please visit www.tweedy.com to obtain performance data, which is current to the most recent month end. The Fund does not impose any front-end or deferred sales charge. However, a 2% redemption fee is imposed on redemption proceeds for redemptions or exchanges made within 60 days of purchase. Performance data does not reflect the deduction of the redemption fee and if reflected, the redemption fee would reduce performance data quoted for periods of 60 days or less.

Current and future portfolio holdings are subject to risk. Investing in foreign securities involves additional risks beyond the risks of investing in US securities markets. These risks include currency fluctuations; political uncertainty; different accounting and financial standards; different regulatory environments; and different market and economic factors in various non-U.S. countries. In addition, the securities of small, less well-known companies may be more volatile than those of larger companies. Value investing involves the risk that the market will not recognize a security's intrinsic value for a long time, or that a security thought to be undervalued may actually be appropriately priced. Investors should refer to the Fund's prospectus for a description of risk factors associated with investments in securities held by the Fund.
