This report is for the information of the shareholders of Tweedy, Browne Fund Inc. Its use in connection with any offering of the Company's shares is authorized only in a case of a concurrent or prior delivery of the Company's current prospectus. Investors should refer to the accompanying prospectus for description of risk factors associated with investments in securities held by both Funds. The securities of small, less well-known companies may be more volatile than those of larger companies. In addition, investing in foreign securities involves additional risks beyond the risks of investing in securities of US markets. These risks involve economic and political considerations not typically found in US markets, including currency fluctuations, political uncertainty and differences in financial standards, regulatory environments, and overall market and economic factors in the countries. Tweedy, Browne Company LLC is the Distributor of the Company.

TWEEDY, BROWNE FUND INC.

* Past performance is not a guarantee of future results, and total return and principal value of investments will fluctuate with market changes. Shares, when redeemed,

may be worth more or less than their original cost. Results are annualized for all periods except the 6 months period. Current performance may be lower or higher than the performance data quoted. Please visit www.twedy.com to obtain performance data which is current to the most recent month end.

Beginning with this report, we are changing the manner in which we provide our comments on your Funds' performance and our investment outlook. These comments from your Funds' managers will be provided to our shareholders separately and will be sent to you within the same general time frame. The reason we are adopting this procedure relates to a relatively new piece of federal legislation called the Sarbanes-Oxley Act of 2002. Under these new regulations, a fund's principal executive and financial officers are required to certify the entire contents of shareholder reports in a filing with the Securities and Exchange Commission on a new form, called Form N-CSR. This certification covers not only the financial statements, but also the investment managers' comments and subjective opinions if they are attached to or are a part of the financial statements. In our own letters we often cite opinions and/or observations of others in the investment industry, all of which we would also be required to certify under these new regulations. As we are not privy to others' sources of information, we do not feel we can certify statements made by others despite how relevant or informative we consider them to be.

We hope you will understand our reason for this change, which we believe is an unintended consequence of increasing regulatory requirements affecting public companies. We are not the first fund company to adopt this procedure, and trust we will not be the last. We hope that the certification requirements of these new regulations will be modified in the future to permit us to include our investment commentary with our annual and semi-annual reports. Until then, look for our commentary in a separate booklet with a dark blue cover or on our website at www.twedy.com.

Very truly yours,
TWEEDY, BROWNE COMPANY LLC

Footnotes

- (1) Indexes are unmanaged, and the figures for the indexes shown include reinvestment of dividends and capital gains distributions and do not reflect any fees or expenses. Investors cannot invest directly in an index. We strongly recommend that these factors be considered before an investment decision is made.
- (2) MSCI EAFE US\$ is an unmanaged capitalization-weighted index of companies representing the stock markets of Europe, Australasia and the Far East. MSCI EAFE Hedged consists of the results of the MSCI EAFE Index hedged 100% back into US dollars and accounts for interest rate differentials in forward currency exchange rates. Results for both indexes are inclusive of dividends and net of foreign withholding taxes.
- (3) Inception dates for the Global Value Fund and the American Value Fund were June 15, 1993 and December 8, 1993, respectively. Except for the S&P 500 Index, information with respect to all other indexes used is available at month end only; therefore the closest month end to each Fund's inception date, May 31, 1993 and November 30, 1993, respectively, were used.
- (4) S&P 500 is an unmanaged capitalization-weighted index composed of 500 widely held common stocks listed on the New York Stock Exchange, American Stock Exchange and over-the-counter market and includes the reinvestment of dividends.

TWEEDY, BROWNE GLOBAL VALUE FUND

Notes to Financial Statements (Unaudited)

1. Significant Accounting Policies

Tweedy, Browne Global Value Fund (the “Fund”) is a diversified series of Tweedy, Browne Fund Inc. (the “Company”). The Company is an open-end management investment company registered with the Securities and Exchange Commission under the Investment Company Act of 1940, as amended. The Company was organized as a Maryland corporation on January 28, 1993. The Fund commenced operations on June 15, 1993. The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements.

Portfolio Valuation Generally, the Fund’s investments are valued at market value or at fair value as determined by or under the direction of the Company’s Board of Directors. Portfolio securities and other assets, listed on a US national securities exchange or through any system providing for same day publication of actual prices (and not subject to restrictions against sale by the Fund on such exchange or system) are valued at the last quoted sale price or the Nasdaq Official Close Price (“NOCP”), when appropriate, prior to the close of regular trading. Portfolio securities and other assets listed on a foreign exchange or through any system providing for same day publication of actual prices are valued at the last quoted sale price available before the time when assets are valued. Portfolio securities and other assets for which there are no reported sales on the valuation date are valued at the mean between the last asked price and the last bid price prior to the close of regular trading. When the Investment Adviser determines that the last sale price prior to valuation or the NOCP does not reflect current market value, the Investment Adviser will determine the market value of those securities or assets in accordance with industry practice and other factors considered relevant by the Investment Adviser. All other securities and assets for which current market quotations are not readily available and those securities which are not readily marketable due to significant legal or contractual restrictions will be valued at fair value as determined by the Investment Adviser under the direction of the Board of Directors. Debt securities purchased with a remaining maturity of 60 days or less are valued at amortized cost, which approximates market value, or by

TWEEDY, BROWNE GLOBAL VALUE FUND

Notes to Financial Statements (Unaudited)

reference to other factors (i.e., pricing services or dealer quotations) by the Investment Adviser.

Repurchase Agreements The Fund engages in repurchase agreement transactions. Under the terms of a typical repurchase agreement, the Fund takes possession of an underlying debt obligation subject to an obligation of the seller to repurchase, and the Fund to resell, the obligation at an agreed-upon price and time, thereby determining the yield during the Fund's holding period. This arrangement results in a fixed rate of return that is not subject to market fluctuations during the Fund's holding period. The value of the collateral is at all times at least equal to the total amount of the repurchase obligations, including interest. In the event of counterparty default, the Fund has the right to use the collateral to offset losses incurred. There is potential loss to the Fund in the event the Fund is delayed or prevented from exercising its rights to dispose of the collateral securities, including the risk of a possible decline in the value of the underlying securities during the period while the Fund seeks to assert its rights. The Fund's Investment Adviser reviews the value of the collateral and the creditworthiness of those banks and dealers with which the Fund enters into repurchase agreements to evaluate potential risks.

Foreign Currency The books and records of the Fund are maintained in US dollars. Foreign currencies, investments and other assets and liabilities are translated into US dollars at the exchange rates prevailing at the end of the period, and purchases and sales of investment securities, income and expenses are translated on the respective dates of such transactions. Unrealized gains and losses which result from changes in foreign currency exchange rates have been included in the unrealized appreciation (depreciation) of currencies and net other assets. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade date and settlement date on investments, securities transactions, foreign currency transactions and the difference between the amounts of interest and dividends recorded on the books of the Fund and the amount actually received. The portion of foreign currency gains and losses related to fluctuation in the exchange rates between the initial purchase trade date and subsequent sale trade date is included in realized gains and losses on investment securities sold.

TWEEDY, BROWNE GLOBAL VALUE FUND

Notes to Financial Statements (Unaudited)

Forward Exchange Contracts The Fund has entered into forward exchange contracts for non-trading purposes in order to reduce its exposure to fluctuations in foreign currency exchange on its portfolio holdings. Forward exchange contracts are valued at the forward rate and are marked-to-market daily. The change in market value is recorded by the Fund as an unrealized gain or loss. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time that it was opened and the value of the contract at the time that it was closed.

The use of forward exchange contracts does not eliminate fluctuations in the underlying prices of the Fund's investment securities, but it does establish a rate of exchange that can be achieved in the future. Although forward exchange contracts limit the risk of loss due to a decline in the value of the hedged currency, they also limit any potential gain that might result should the value of the currency increase. In addition, the Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts.

Securities Transactions and Investment Income Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income and distributions to shareholders are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Dividend income and interest income may be subject to foreign withholding taxes. The Fund's custodian applies for refunds where available.

Tweedy, Browne Company LLC is reimbursed by the Fund for the cost of settling transactions in US securities for the Fund through its clearing broker. For the six months ended September 30, 2003 the Fund reimbursed Tweedy, Browne Company LLC \$178 for such transaction charges.

Dividends and Distributions to Shareholders Dividends from net investment income, if any, and distributions from realized capital gains after utilization of capital loss carryforwards, if any, will be declared and paid annually. Additional distributions of net investment income and capital gains from the Fund may be made at the discretion of the Board of Directors in order to avoid the application of a 4% non-deductible Federal excise tax on certain undistributed amounts of ordinary income and capital gains. Income dividends

TWEEDY, BROWNE GLOBAL VALUE FUND

Notes to Financial Statements (Unaudited)

and capital gain distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund.

Federal Income Taxes The Fund has qualified and intends to continue to qualify as a regulated investment company, if such qualification is in the best interest of its shareholders, by complying with the requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies and by distributing substantially all of its taxable income to its shareholders. Therefore, no Federal income tax provision is required.

Expenses Expenses directly attributable to the Fund as a diversified series of the Company are charged to the Fund. Other expenses of the Company are allocated to each series based on the average net assets of each series.

2. Investment Advisory Fee, Other Related Party Transactions and Administration Fee

The Company, on behalf of the Fund, has entered into an investment advisory agreement (the “Advisory Agreement”) with Tweedy, Browne Company LLC (“Tweedy, Browne”). Under the Advisory Agreement, the Company pays Tweedy, Browne a fee at the annual rate of 1.25% of the value of the Fund’s average daily net assets. The fee is payable monthly, provided the Fund will make such interim payments as may be requested by the Investment Adviser not to exceed 75% of the amount of the fee then accrued on the books of the Fund and unpaid.

The current and retired managing directors and their families, as well as employees of Tweedy, Browne, the Investment Adviser to the Fund, have approximately \$48.3 million of their own money invested in the Fund as of September 30, 2003.

The Company, on behalf of the Fund, has entered into an administration agreement (the “Administration Agreement”) with PFPC Inc. (the “Administrator”), an indirect, majority-owned subsidiary of The PNC Financial Services Group Inc. Under the Administration Agreement, the Company pays the Administrator an administration fee and a fund accounting

TWEEDY, BROWNE GLOBAL VALUE FUND

Notes to Financial Statements (Unaudited)

fee computed daily and payable monthly at the following annual rates of the value of the average daily net assets of the Fund:

	Up to \$500 Million	Between \$500 Million and \$1 Billion	Between \$1 Billion and \$4 Billion	Exceeding \$4 Billion
Administration Fees	0.06%	0.04%	0.02%	0.015%

	Up to \$100 Million	Between \$100 Million and \$2 Billion	Between \$2 Billion and \$4 Billion	Exceeding \$4 Billion
Accounting Fees	0.03%	0.01%	0.0075%	0.006%

No officer, director or employee of Tweedy, Browne, the Administrator or any parent or subsidiary of those corporations receives any compensation from the Company for serving as a director or officer of the Company. The Company pays each Non-Interested Director \$50,000 annually to be paid quarterly in \$12,500 increments plus out-of-pocket expenses for their services as directors. The annual fee of \$50,000 paid to each Non-Interested Director is divided proportionately between the Fund and the Tweedy, Browne American Value Fund, based on respective assets of each series.

Mellon Trust of New England (“MTONE”), formerly Boston Safe Deposit and Trust Company, an indirect, wholly-owned subsidiary of Mellon Trust, serves as the Fund’s custodian pursuant to a custody agreement (the “Custody Agreement”). PFPC Inc. serves as the Fund’s transfer agent. Tweedy, Browne also serves as the distributor to the Fund and pays all distribution fees. No distribution fees are paid by the Fund.

3. Securities Transactions

Cost of purchases and proceeds from sales of investment securities, excluding short-term investments, for the six months ended September 30, 2003, aggregated \$205,227,445 and \$238,858,519, respectively.

At September 30, 2003, the aggregate gross unrealized appreciation for all securities, in which there was an excess of value over tax cost, was

TWEEDY, BROWNE GLOBAL VALUE FUND

Notes to Financial Statements (Unaudited)

\$1,150,847,049 and the aggregate gross unrealized depreciation for all securities, in which there was an excess of tax cost over value, was \$281,082,365.

4. Capital Stock

The Company is authorized to issue one billion shares of \$0.0001 par value capital stock, of which 400,000,000 of the unissued shares have been designated as shares of the Fund. Changes in shares outstanding for the Fund were as follows:

	Six Months Ended 9/30/03		Year Ended 3/31/03	
	Shares	Amount	Shares	Amount
Sold	127,425,911	\$2,084,322,320	354,762,237	\$5,891,099,961
Reinvested	0	0	6,894,157	107,824,613
Redeemed	(134,354,838)	(2,213,947,502)	(336,482,653)	(5,551,387,376)
Net Increase (Decrease)	(6,931,927)	\$ (129,625,182)	25,173,741	\$ 447,537,198

5. Foreign Securities

Investing in securities of foreign companies and foreign governments involves economic and political risks and considerations not typically associated with investing in US companies and the US Government. These considerations include changes in exchange rates and exchange rate controls (which may include suspension of the ability to transfer currency from a given country), costs incurred in conversions between currencies, non-negotiable brokerage commissions, less publicly available information, different accounting standards, lower trading volume, delayed settlements and greater market volatility, the difficulty of enforcing obligations in other countries, less securities regulation, different tax provisions (including withholding on dividends paid to the Fund), war, expropriation, political and social instability and diplomatic developments.

6. Line of Credit

The Company and Mellon Bank, N.A. (the "Bank") entered into a Line of Credit Agreement (the "Agreement") which, as amended effective September 24, 2003, provides the Company, on behalf of the Fund and the Tweedy, Browne American Value Fund, with a \$100 million line of credit (the

TWEEDY, BROWNE GLOBAL VALUE FUND

Notes to Financial Statements (Unaudited)

“Commitment”) primarily for temporary or emergency purposes, including the meeting of redemption requests that might otherwise require the untimely disposition of securities. The Fund may borrow up to the value of one-third of its net assets; provided, however, that the total Commitment available to the Fund is reduced by borrowings of the Tweedy, Browne American Value Fund. Interest is payable at the Bank’s money market rate plus 0.75% on an annualized basis. Under the Agreement, the Company pays a facility fee equal to 0.10% annually of the unutilized Commitment. The Agreement requires, among other provisions, the Fund to maintain a ratio of net assets (not including funds borrowed pursuant to the Agreement) to aggregated amount of indebtedness pursuant to the Agreement of no less than three to one. For the six months ended September 30, 2003, the Company did not borrow, on behalf of the Fund, under the Agreement.

7. Securities Lending

The Fund may lend securities to brokers, dealers and other financial organizations to earn additional income. Each security out on loan is collateralized with segregated assets held with the Fund’s custodian in an amount equal to or greater than the current market value of loaned securities.

At September 30, 2003, the Fund did not have any securities out on loan and did not have any segregated assets with the Fund’s custodian.

TWEEDY, BROWNE AMERICAN VALUE FUND

Notes to Financial Statements (Unaudited)

1. Significant Accounting Policies

Tweedy, Browne American Value Fund (the “Fund”) is a diversified series of Tweedy, Browne Fund Inc. (the “Company”). The Company is an open-end management investment company registered with the Securities and Exchange Commission under the Investment Company Act of 1940, as amended. The Company was organized as a Maryland corporation on January 28, 1993. The Fund commenced operations on December 8, 1993. The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements.

Portfolio Valuation Generally, the Fund’s investments are valued at market value or at fair value as determined by or under the direction of the Company’s Board of Directors. Portfolio securities and other assets, listed on a US national securities exchange or through any system providing for same day publication of actual prices (and not subject to restrictions against sale by the Fund on such exchange or system) are valued at the last quoted sale price or the Nasdaq Official Close Price (“NOCP”), when appropriate, prior to the close of regular trading. Portfolio securities and other assets listed on a foreign exchange or through any system providing for same day publication of actual prices are valued at the last quoted sale price available before the time when assets are valued. Portfolio securities and other assets for which there are no reported sales on the valuation date are valued at the mean between the last asked price and the last bid price prior to the close of regular trading. When the Investment Adviser determines that the last sale price prior to valuation or the NOCP does not reflect current market value, the Investment Adviser will determine the market value of those securities or assets in accordance with industry practice and other factors considered relevant by the Investment Adviser. All other securities and assets for which current market quotations are not readily available and those securities which are not readily marketable due to significant legal or contractual restrictions will be valued at fair value as determined by the Investment Adviser under the direction of the Board of Directors. Debt securities purchased with a remaining maturity of 60 days or less are valued at amortized cost, which approximates market value, or by

TWEEDY, BROWNE AMERICAN VALUE FUND

Notes to Financial Statements (Unaudited)

reference to other factors (i.e., pricing services or dealer quotations) by the Investment Adviser.

Repurchase Agreements The Fund engages in repurchase agreement transactions. Under the terms of a typical repurchase agreement, the Fund takes possession of an underlying debt obligation subject to an obligation of the seller to repurchase, and the Fund to resell, the obligation at an agreed-upon price and time, thereby determining the yield during the Fund's holding period. This arrangement results in a fixed rate of return that is not subject to market fluctuations during the Fund's holding period. The value of the collateral is at all times at least equal to the total amount of the repurchase obligations, including interest. In the event of counterparty default, the Fund has the right to use the collateral to offset losses incurred. There is potential loss to the Fund in the event the Fund is delayed or prevented from exercising its rights to dispose of the collateral securities, including the risk of a possible decline in the value of the underlying securities during the period while the Fund seeks to assert its rights. The Fund's Investment Adviser reviews the value of the collateral and the creditworthiness of those banks and dealers with which the Fund enters into repurchase agreements to evaluate potential risks.

Foreign Currency The books and records of the Fund are maintained in US dollars. Foreign currencies, investments and other assets and liabilities are translated into US dollars at the exchange rates prevailing at the end of the period, and purchases and sales of investment securities, income and expenses are translated on the respective dates of such transactions. Unrealized gains and losses which result from changes in foreign currency exchange rates have been included in the unrealized appreciation (depreciation) of currencies and net other assets. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade date and settlement date on investments, securities transactions, foreign currency transactions and the difference between the amounts of interest and dividends recorded on the books of the Fund and the amount actually received. The portion of foreign currency gains and losses related to fluctuation in the exchange rates between the initial purchase trade date and subsequent sale trade date is included in realized gains and losses on investment securities sold.

TWEEDY, BROWNE AMERICAN VALUE FUND

Notes to Financial Statements (Unaudited)

Forward Exchange Contracts The Fund has entered into forward exchange contracts for non-trading purposes in order to reduce its exposure to fluctuations in foreign currency exchange on its portfolio holdings. Forward exchange contracts are valued at the forward rate and are marked-to-market daily. The change in market value is recorded by the Fund as an unrealized gain or loss. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time that it was opened and the value of the contract at the time that it was closed.

The use of forward exchange contracts does not eliminate fluctuations in the underlying prices of the Fund's investment securities, but it does establish a rate of exchange that can be achieved in the future. Although forward exchange contracts limit the risk of loss due to a decline in the value of the hedged currency, they also limit any potential gain that might result should the value of the currency increase. In addition, the Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts.

Securities Transactions and Investment Income Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income and distributions to shareholders are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Dividend income and interest income may be subject to foreign withholding taxes. The Fund's custodian applies for refunds where available.

Tweedy, Browne Company LLC is reimbursed by the Fund for the cost of settling transactions in US securities for the Fund through its clearing broker. For the six months ended September 30, 2003 the Fund reimbursed Tweedy, Browne Company LLC \$1,677 for such transaction charges.

Dividends and Distributions to Shareholders Dividends from net investment income, if any, and distributions from realized capital gains after utilization of capital loss carryforwards, if any, will be declared and paid annually. Additional distributions of net investment income and capital gains from the Fund may be made at the discretion of the Board of Directors in order to avoid the application of a 4% non-deductible Federal excise tax on certain undistributed amounts of ordinary income and capital gains. Income dividends

TWEEDY, BROWNE AMERICAN VALUE FUND

Notes to Financial Statements (Unaudited)

and capital gain distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund.

Federal Income Taxes The Fund has qualified and intends to continue to qualify as a regulated investment company, if such qualification is in the best interest of its shareholders, by complying with the requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies and by distributing substantially all of its taxable income to its shareholders. Therefore, no Federal income tax provision is required.

Expenses Expenses directly attributable to the Fund as a diversified series of the Company are charged to the Fund. Other expenses of the Company are allocated to each series based on the average net assets of each series.

2. Investment Advisory Fee, Other Related Party Transactions and Administration Fee

The Company, on behalf of the Fund, has entered into an investment advisory agreement (the “Advisory Agreement”) with Tweedy, Browne Company LLC (“Tweedy, Browne”). Under the Advisory Agreement, the Company pays Tweedy, Browne a fee at the annual rate of 1.25% of the value of the Fund’s average daily net assets. The fee is payable monthly, provided the Fund will make such interim payments as may be requested by the Investment Adviser not to exceed 75% of the amount of the fee then accrued on the books of the Fund and unpaid.

The current and retired managing directors and their families, as well as employees of Tweedy, Browne, the Investment Adviser to the Fund, have approximately \$33.8 million of their own money invested in the Fund as of September 30, 2003.

The Company, on behalf of the Fund, has entered into an administration agreement (the “Administration Agreement”) with PFPC Inc. (the “Administrator”), an indirect, majority-owned subsidiary of The PNC Financial Services Group Inc. Under the Administration Agreement, the Company pays the Administrator an administration fee and a fund accounting

No officer, director or employee of Tweedy, Browne, the Administrator or any parent or subsidiary of those corporations receives any compensation from the Company for serving as a director or officer of the Company. The Company pays each Non-Interested Director \$50,000 annually to be paid quarterly in \$12,500 increments plus out-of-pocket expenses for their services as directors. The annual fee of \$50,000 paid to each Non-Interested Director is divided proportionately between the Fund and the Tweedy, Browne Global Fund, based on the respective assets of each series.

Mellon Trust of New England (“MTONE”), formerly Boston Safe Deposit and Trust Company, an indirect, wholly-owned subsidiary of Mellon Trust, serves as the Fund’s custodian pursuant to a custody agreement (the “Custody Agreement”). PFPC Inc. serves as the Fund’s transfer agent. Tweedy, Browne also serves as the distributor to the Fund and pays all distribution fees. No distribution fees are paid by the Fund.

3. Securities Transactions

Cost of purchases and proceeds from sales of investment securities, excluding short-term investments, for the six months ended September 30, 2003, aggregated \$9,663,002 and \$38,609,244, respectively.

At September 30, 2003, the aggregate gross unrealized appreciation for all securities, in which there was an excess of value over tax cost, was

\$229,623,816 and the aggregate gross unrealized depreciation for all securities, in which there was an excess of tax cost over value, was \$51,802,935.

4. Capital Stock

The Company is authorized to issue one billion shares of \$0.0001 par value capital stock, of which 400,000,000 of the unissued shares have been designated as shares of the Fund. Changes in shares outstanding for the Fund were as follows:

	Six Months Ended 9/30/03		Year Ended 3/31/03	
	Shares	Amount	Shares	Amount
Sold	2,023,275	\$42,213,482	8,688,008	\$ 178,689,959
Reinvested	0	0	825,428	15,889,486
Redeemed	(4,661,623)	(97,071,802)	(14,234,308)	(290,091,134)
Net Increase (Decrease)	(2,638,348)	\$(54,858,320)	(4,720,872)	\$ (95,511,689)

5. Foreign Securities

Investing in securities of foreign companies and foreign governments involves economic and political risks and considerations not typically associated with investing in US companies and the US Government. These considerations include changes in exchange rates and exchange rate controls (which may include suspension of the ability to transfer currency from a given country), costs incurred in conversions between currencies, non-negotiable brokerage commissions, less publicly available information, different accounting standards, lower trading volume, delayed settlements and greater market volatility, the difficulty of enforcing obligations in other countries, less securities regulation, different tax provisions (including withholding on dividends paid to the Fund), war, expropriation, political and social instability and diplomatic developments.

6. Line of Credit

The Company and Mellon Bank, N.A. (the "Bank") entered into a Line of Credit Agreement (the "Agreement") which, as amended effective September 24, 2003, provides the Company, on behalf of the Fund and the Tweedy, Browne Global Value Fund, with a \$100 million line of credit (the

“Commitment”) primarily for temporary or emergency purposes, including the meeting of redemption requests that might otherwise require the untimely disposition of securities. The Fund may borrow up to the value of one-third of its net assets; provided, however, that the total Commitment available to the Fund is reduced by borrowings of the Tweedy, Browne Global Value Fund. Interest is payable at the Bank’s money market rate plus 0.75% on an annualized basis. Under the Agreement, the Company pays a facility fee equal to 0.10% annually of the unutilized Commitment. The Agreement requires, among other provisions, the Fund to maintain a ratio of net assets (not including funds borrowed pursuant to the Agreement) to aggregated amount of indebtedness pursuant to the Agreement of no less than three to one. For the six months ended September 30, 2003, the Company did not borrow, on behalf of the Fund, under the Agreement.

7. Securities Lending

The Fund may lend securities to brokers, dealers and other financial organizations to earn additional income. Each security out on loan is collateralized with segregated assets held with the Fund’s custodian in an amount equal to or greater than the current market value of loaned securities.

At September 30, 2003, the Fund did not have any securities out on loan and did not have any segregated assets with the Fund’s custodian.
